Tamil ●●●●●●●●

## CERTIFICATION

The Complete 2023 Web Development Bootcamp  
online course-udemy

01

## ABOUT ME

I am a self-learned front-end developer with knowledge in Javascript, ReactJS, CSS and HTML. My interest in the same has motivated me to create a QuizWebsite and also an user-interactive To-Do list page. With this hand-on I have also started exploring in back-end development with primary programming language as Java. I am an open and quick learner and looking forward to put my existing skills into practice.

02

## PROJECTS

### > QLEDGE (A Quiz Website using ChatGPT)

- TypeScript, NextJS, Prisma DB, TailwindCSS, React JS, React Query, Next Auth

A website which is powered by ChatGPT API and Next JS for faster rendering .It is a Quiz App where user can enter the topic and ChatGPT provides the questions and user can start playing

### > Smart mirror using Artificial Intelligence and Raspberry pi4

- Python

It is a day to day life mirror ,where one can access the news, weather, temperature and can interact with the mirror by using the voice command and can access google for more information.

03
